

PETRONAS

PETRONAS DAGANGAN BERHAD POLICY ON HEALTH, SAFETY & ENVIRONMENT

PDB is committed to Health, Safety and Environment (HSE) and shall take practicable steps to prevent or eliminate injuries and occupational illnesses, and damage to properties.

PDB shall ensure that measures are taken to protect the environment and that natural resources are used sustainably.

PDB shall comply with all applicable local HSE regulatory requirements in countries where it operates.

PDB shall establish Health, Safety and Environment Management System to ensure continual improvement in HSE management and performance.

PDB shall manage all HSE risks associated with its activities and provide control measures to eliminate or reduce the risks to a level as low as reasonably practicable (ALARP).

PDB shall ensure an effective response system is established and implemented to mitigate adverse effects and business disruption arising from any emergencies.

PDB shall provide resources in all its activities to ensure safe working environment and meeting HSE improvement objectives and targets.

PDB shall engage with stakeholders and communicate relevant HSE matters with the communities where it operates to develop and maintain a mutual understanding of HSE goals and expectations.

All employees and contractors are expected to strictly adhere to this policy to achieve a desired positive HSE culture.

A handwritten signature in black ink, appearing to read 'A.R.' with a flourish.
