

Our Sustainability Approach and Roadmap

In 2021, we took our first steps towards developing a strategic Sustainability Roadmap, guided by PETRONAS' four sustainability lenses of Continued Value Creation, Safeguard the Environment, Positive Social Impact, and Responsible Governance, which are aligned with the United Nations' Sustainable Development Goals 2030 and our promise of Making Your Everyday Life Simpler and Better.

Lens 1: Continued Value Creation

Drive long-term business value creation through responsible investments.

Lens 2: Safeguard the Environment

Collaboratively reduce environmental impact by transitioning to lower carbon energy solutions and deploying innovative operations and technologies.

Lens 3: Positive Social Impact

Create positive alliances with the communities in which we operate by protecting and adding value to the well-being of employees, partners and society.

Lens 4: Responsible Governance

Safeguard the organisation's commitment through strong governance mechanisms and ethical business practices.

Our Sustainability Approach and Roadmap

The five-year blueprint focuses on six pillars which together guide us towards growing our business in a manner that is respectful of the needs and interests of our stakeholders – namely our suppliers, business partners, employees, shareholders and the community at large – while causing minimal impact on the environment. Our objective is for Environmental, Social and Governance (ESG) imperatives to become ingrained into the culture at PDB such that everything we do takes into consideration the consequences on our ecosystem. Through the Roadmap, moreover, we ensure alignment of our sustainability initiatives with PETRONAS' statement of purpose.

STATEMENT OF ASSURANCE

As part of our commitment in providing meaningful disclosures to our stakeholders, we strive to build trust through a rigorous and transparent reporting process. For our current year's reporting, we have engaged an independent firm to provide limited assurance for selected disclosures and sustainability indicators that are included in this Report. The exercise is presently underway and we are actively working to ensure its successful completion.

The following is an overview of PDB's Sustainability Roadmap

<h4>Entrepreneurship and growth</h4> <p>▼</p> <p>Aim: To provide further opportunities and support MSME/SME growth and expansion</p> <p>SDGS: </p>	<h4>Cleaner energy solutions</h4> <p>▼</p> <p>Aim: To support the aspiration and drive towards Net Zero 2050/carbon neutral position through cleaner energy solutions</p> <p>SDGS: </p>	<h4>Sustainable supply chain</h4> <p>▼</p> <p>Aim: To contribute to the circular economy by mitigating our environmental footprint along our value chain</p> <p>SDGS: </p>
<h4>Human rights</h4> <p>▼</p> <p>Aim: To have in place an effective system and processes that ensure full compliance and adherence to applicable Human Rights and Labour standards and requirements</p> <p>SDGS: </p>	<h4>Targeted community investment</h4> <p>▼</p> <p>Aim: To establish a flagship community investment programme that is recognisable, targeted and long-term, based on social impact assessment</p> <p>SDGS: </p>	<h4>Sustainability governance and ESG risk management</h4> <p>▼</p> <p>Aim: To further reinforce our system/process of sustainability governance and be recognised among best practices</p> <p>To identify, assess and integrate relevant ESG indicators into ERM and be recognised among best practices</p> <p>SDGS: </p>
